INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Bear Valley Water District
Bear Valley, California

We have audited the accompanying financial statements of Bear Valley Water District, as of and for the year ended June 30, 2014, as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Bear Valley Water District as of June 30, 2014, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America, as well as the accounting systems prescribed by the State Controller's Office and State Regulations governing Special Districts.

Other-Matters

Required Supplementary Information

The Management's Discussion and Analysis is not a required part of the financial statements but is supplemental information required by the Government Auditing Standards Board. Management has elected to omit the Management's Discussion and Analysis.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

BEAR VALLEY WATER DISTRICT NOTES TO FINANCIAL STATEMENTS

1. Organization:

Bear Valley Water District (the "District") was formed in 1968 and provides sewer service to residents of the District. The District is governed by a Board of Directors which is elected by the landowners of the District.

2. Summary of Significant Accounting Policies:

The basic financial statements of Bear Valley Water District have been prepared in conformity with generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Fund Accounting

The District is an enterprise fund. All operations are accounted for as an enterprise fund.

Enterprise Fund – The enterprise fund is used to account for sewer operations that are financed and operated in a manner similar to private business enterprises. The intent of the District is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges.

Basis of Accounting

The basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

The District's books and accounts are based upon the Uniform System of Accounts for Public Utilities as prescribed by the Division of Local Government Fiscal Affairs of the State of California. The records are maintained and the accompanying financial statements are presented on the accrual basis of accounting.

**BEAR VALLEY WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued**

2. Summary of Significant Accounting Policies, continued:

Basis of Accounting, continued

Operating revenues and expenses, such as sewer sales along with sewer expenses, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each part receives and gives up essentially equal values. Management, administration and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses. Non-operating revenues and expenses, such as grant funding, investment income and interest expense, result from non-exchange transactions, in which, the District gives (receives) value without directly receiving (giving) value in exchange.

Depreciation

Utility plant and equipment is recorded on the basis of purchase cost. Assets acquired by contribution are recorded at estimated cost or fair market value at the time of acquisition.

Depreciation is calculated by the straight-line method over the estimated useful lives of the respective assets.

Collection facilities	10-100 years
Treatment facilities	10-40 years
Disposal facilities	10-40 years
General equipment	4-10 years

Statement of Cash Flows

All highly liquid investments with a maturity of three months or less when purchased, are considered to be cash equivalents. The investment with the State Treasurer's Local Agency Investment Fund (LAIF) is also considered to be the equivalent of cash.

Compensated Absences

Vested or accumulated vacation that is expected to be liquidated with expendable available financial resources is reported as a current liability.

**BEAR VALLEY WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued**

2. Summary of Significant Accounting Policies, continued:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Budget and Budgetary Accounting

The Board of Directors annually adopts an operating budget. The operating budget is prepared on the accrual basis to match the operating statements.

Investments

Investments consist of funds deposited in the Local Agency Investment Fund (LAIF) which is a Pooled Money Investment Account held with the State of California. Investments are stated at market value. Such investment is within the State statutes and the District's investment policy.

**BEAR VALLEY WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued**

3. Cash and Investments:

Cash and investments consist of the following at June 30, 2014:

Unrestricted	\$ 606,997
Restricted	<u>24,688</u>
Total cash and investments	<u>\$ 631,685</u>

Deposits:

At year-end the carrying amount of the District's deposits was \$336,223 and the bank balance was \$337,331. The bank balance was covered by Federal depository insurance and by collateral held in the pledging banks' trust department as mandated by state law.

	<u>Balance June 30, 2014</u>
Petty cash	\$ 50
Cash in bank – checking (operating account)	311,485
Cash in bank – checking (connection fees)	<u>24,688</u>
Total deposits	<u>\$ 336,223</u>

Investments:

California statutes authorize the District to invest in a variety of credit instruments as provided for in the California Government Code Section 53600, Chapter 4 – Financial Affairs. The Government Code allows investments in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper rated A-1 by Standard & Poor's or P-1 by Moody's Commercial Paper Record, bankers' acceptances, repurchase agreements, medium-term corporate notes, mutual funds and the State Treasurer's Local Agency Investment Fund (LAIF). The investment in LAIF is reported at fair value.

Local Agency Investment Fund	<u>\$ 295,462</u>	<u>\$ 295,462</u>

**BEAR VALLEY WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued**

3. Cash and Investments, continued:

Investments, continued:

Pursuant to Government Accounting Standards Board Statement 3, the investment in LAIF is not classified in categories of credit risk. The District's funds in LAIF are invested in a diversified portfolio (of underlying investments e.g. U.S. Treasury obligations) such that it considers the risk of material loss to be minimal. The funds held in LAIF can be withdrawn on demand.

Restricted Cash and Investments:

The District sets aside funds from receipt of connection fees pursuant to legal restrictions. At June 30, 2014, the District had set aside the following in cash for special purposes:

	Balance June 30, 2014
Connection fees	\$ <u>24,688</u>

6. Risk of Loss:

Bear Valley Water District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; and injuries to employees. During the 2014 fiscal year, the District purchased certain commercial insurance coverages to provide for these risks.

**BEAR VALLEY WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS, continued**

7. Simple IRA Plan:

In September 2002 the District implemented a Simple IRA plan for the benefit of its full-time employees. To be eligible for the plan, the employees must be employed by the District for one year. If the employee makes a contribution on his/her own behalf, then the District contributes 3% of the employee's gross wages. At June 30, 2014, the District's portion of the Simple IRA contribution was \$2,644.

8. Subsequent Events:

Management has evaluated subsequent events through September 8, 2014, the date these June 30, 2014 financial statements were available to be issued.
